

What would you like to see when it comes to recreation in the Town of Mount Pleasant?

I'm happy with our towns recreation facilities, thank you

I'd like golf carts and e-bikes off our road

Family friendly spaces! This town lost its bowling alley, and is now losing its outdoor sand volleyball courts to a hotel and its town center movie theatre to apartments and office space. Mount Pleasant markets itself to families. We have incorporated affordable housing at every turn which brings more families. But we take away all the things families can do together. We need a bowling alley. We need a movie theatre. We need more rec space, indoor and outdoor. We need safe places for our kids to go do things. This is not the town I moved to 24 years ago, I get that. But even in the last 13 years after having kids I regret raising them here on a weekly basis.

Trail from edge of Awendaw to rifle range trail

Completion of current projects and preservation of trees and green space. Then stop taxing and spending!!

Spend less of our tax dollars!!

More Fields for Youth Lacrosse, Maybe Turf a few fields just seems like Mount Pleasant is lacking in high quality recreation fields for youth sports ! Also could be a money maker when hosting tournaments , local hotels , Bars Restaraunts

I think an amphitheater would be great for entertainment plus place for families to unwind

Upgrade existing facilities as needed but please do not cut any more trees!! We want natural areas, not more soccer fields.

Mount Pleasant Way pushed forward across Mathis Ferry, especially from Hospital Drive towards Eagle Street

Walking areas!

The youth sports fields are inadequate for soccer. The fields are so small to provide space for so many kids...they mostly lose the ball off the end and sidelines. So much of the game is throw ins and corner/goal kicks it's frustrating.

More preservation of natural greenspace, less clear cutting and repurpose empty builds and vacant lots for indoor recreation uses if we need it.

Open Amphitheater for concerts that hold 10,000 people ...Need world class entertainment in Mount Pleasant

Better bike accessibility

More pickleball courts

Dog parks

Less emphasis on sports. There is already too much

Artificial turf at Patriots Point, more pools, bike paths to connect neighborhoods

Museum

Nature preserves

Too much emphasis on sports.

Artificial turf at Patriots Point, more pools and connecting neighborhoods with bike paths

Accessibility by walking, biking and golf cart access to parks

More forested trails. A dog park in rivertowne.

Bicycle trails, tennis courts, pickleball courts, indoor gym space to play pickleball, some basic exercising, walking, warming up, exercising

a much better website - current one is difficult to use and I'm missing being notified when events or classes will be occurring

more pickleball courts

Hiking trails

I would like to see young athletes get more field space. For example, kids in FUN baseball have to share a baseball field for practice with 4 other teams.

Start on the Rifle Range Park! It's much needed as other parks are so far away!

Shaded activities/parks for toddlers (age 1-5 year old)

Olympic size pool

More sports fields/courts and finished way quicker

Roller skate rink & Bowling

Quit trying to use this stupid survey to garner support to run for mayor. You have too many lawsuits against you.

More Open green space

Walking/running trails

More updates on progress - been too long since an update on rifle range park and phase 3 of the waterfront park

That they actually follow through and move faster

It would be great to have food trucks and/or organized family events at rifle range park once it's open! Also, we need more baby and toddler play areas.

Trails

More parks and bike paths

More nature trails and passive parks that do NOT allow dogs. MUCH less ball fields and organized sports facilities that are only useful to people with kids.

Something for everyone

I'd like to see more soccer fields for rec soccer. It is a nightmare driving from south MtP to Carolina Park around 5:30-6:30pm for my child's rec soccer game. Terrible traffic. Most games were up there this past spring season for some reason and not Cheryl Woods-Flowers fields. Improved crosswalks and side walks to allow safe walkability is important to me.

The pools are too cold because of the schools using them for swim team practices. Also a warmer pool is very helpful when teaching swimming to little ones.

More multi sport rectangular fields

All walking/biking paths need to be widened. Streets are too dangerous to bike on.

No effort. Terrible supervising. No mgmt. No one cares. I went to an all star baseball game. No t shirts. No trophies. No one in mgmt at fields. A kid keeping score who was on phone and did not keep score. I felt bad for kids. The fields are a mess. Not cut. No lines. Nothing open for refreshments. Just such a lack for what we pay here for taxes. No

More access for boaters. More options for swimmers. More fields for soccer.

The town has terrific facilities and amenities, but the growth in the population requires additional parks/fields/courts and updates to existing facilities. The town leaders responsible for executing/delivering on publicly approved projects need to show more urgency and transparency. projects

Open rifle range, Park as soon as you can!

Outdoor pool

Deliver on Rifle Range Park

More bike trails

I would like to see leaders make decisions and push things forward. We have made very few upgrades to our town facilities and our citizen expect better. Doing nothing has been the status quo and that isn't what the citizen want

Well developed and thought out recreation spaces where parents are consulted in the design process so the areas are truly functional and user friendly. I've seen too many playgrounds where clearly the family perspective was not taken into consideration

More options for kids . Basketball courts, tennis. There's limited play space

Walking acces to SOME FACILITY for all areas

More availability for inexpensive activities and sports for children and adults

Senior center in the part of Mount pleasant nearest to awendaw

Open , green space . Quit cutting down trees!

More town support of the competitive sports - Better / closer working relationships

The town center would greatly benefit from additional park space to serve as a vibrant community hub. Existing trails, such as those at Fort Palmetto and Patriot's Point, are in need of better maintenance, highlighting the broader need for improved outdoor infrastructure. Expanding and enhancing park options in the heart of town should be a priority to support recreation, wellness, and community connection.

A town workout facility similar to a YMCA on the south side of town. Everything is being built in North Mount Pleasant. We south townies want some of the pool/fitness/rec things on this side of town too.

An aquatic center like the ones in North Charleston. Indoor tennis facility. More lacrosse fields. Not a lot of options for youth lacrosse in north mount pleasant as far as field space. The private gyms are not great and constantly change ownership. I wish we had a public gym option with fitness classes (not just for seniors but all ages).

Youth sports are lacking. Study what James Island is doing. Fewer children and many more teams. We can do better.

Slower growth for our town

Rugby for youth and More community space for picnics and gatherings

I would love more spaces for women's and girls sports when I go to the rec I always see men's teams and boys teams practicing and as a woman who played sports I think it's hard to understand especially for young girls why there isn't more sport for them! Rugby is a sport near and dear to my heart and women's sports are equally as important to me! We need more space for girls to grow in sports!!

Less cutting down trees and filling in water

Dedicated rugby fields

More parks across Mt Pleasant

More available well maintained fields to play rugby on

Fields dedicated to rugby

More support for youth sports

Dedicated youth rugby space (Elem - HS)

More services for older residents. Increase funds for Senior Rec centers

Rifle Range Park!!!!!! Middle Mt P needs more parks—and connection of sidewalks in this zone. Much attention given to OV and Upper Mt P, but the middle zone gets forgotten! (Except for Trader Joe's, many thanks!)

A focus on adults as well. There's lots for kids and that's great. A parcource similar to what is in Hampton Park would be awesome.

All weather facilities

More benches at the soccer complexes

More family friendly spots

Senior center in N Mt Pleasant

Dog parks

Access to volleyball courts (indoor or outdoor) that are not located near ponds. Ability to use indoor spaces for groups outside of organized rec dept activities

Easier ability as a volunteer coach to get rugby fields for practices and matches. I was disappointed that I did not see rugby listed as one of the sports listed in the rectangular field option.

Places where long walks can occur with shade, nature trails. More tennis & pickleball courts.

Another rec dept pool

I would love to see more arts and entertainment options - spaces to support musical performances for example

walking trails & Indoor Tennis facilities
